

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: David Borges
DOCKET NO.: 03-22177.001-R-1
PARCEL NO.: 12-29-413-014-0000

The parties of record before the Property Tax Appeal Board are David Borges, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 45-year old, one-story frame and masonry dwelling containing 1,064 square feet of living area with a full, finished basement and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, one of the comparables is located on the same block as the subject, and three are located approximately 0.5 mile from the subject. The comparables are one-story or one and one-half story frame or frame and masonry dwellings that are 45 to 53 years old. Two of the comparables have partial basements, and two have no basements. Information on garages was not disclosed. The comparables contain 1,125 to 1,248 square feet of living area and have improvement assessments ranging from \$7.87 to \$8.09 per square foot. The subject property has an improvement assessment of \$10.77 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties. Three are located four blocks from the subject, and one is located approximately 0.5 mile from

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	4,771
IMPR.:	\$	8,608
TOTAL:	\$	13,379

Subject only to the State multiplier as applicable.

the subject. The comparable properties consist of one-story frame and masonry or masonry dwellings that are 33 to 44 years old. Three comparables have full, unfinished basements, and one has a partial, unfinished basement. Each comparable has a two-car garage, and one comparable has central air conditioning. The dwellings contain 852 to 1,200 square feet of living area and have improvement assessments of \$14.58 to \$15.97 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

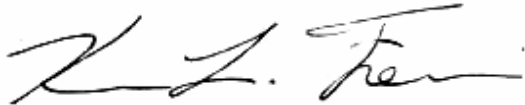

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables one and two differed in location, exterior construction, foundation, and design from the subject. The appellant's comparable three and the board of review's comparable two also differed in location from the subject. As a result, these comparables received reduced weight in the Board's analysis. The board of review's comparables one, three, and four were similar to the subject property, but the appellant's comparable four was the most similar. Located on the same block as the subject, this comparable was also similar to the subject in age and physical characteristics. This comparable had an improvement assessment of \$8.09 per square foot. The subject's improvement assessment of \$10.77 per square foot falls above the level established by this comparable. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the most comparable property contained in the record and a reduction in the subject's assessment is warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
